Concept.

"The purpose of the company is to imitate our Lord, as far as poor and miserable people can imitate Him. What does this mean? That it is proposed to conform to Him in His behaviour, actions, tasks and finalities. How can one person represent another if he does not have the same features, the same lines, proportions, mannerisms and ways of looking?

the same lines, proportions, mannerisms and ways of looking? It is impossible. Therefore, **if we have proposed to resemble this divine model and we feel in our hearts this desire and this holy aspiration, we must strive to conform our thoughts, our works and our intentions to his".**
